I like everything about this office. The people are very caring, helpful, and genuine. I like the fact that they send a text reminder for appointments. I also like the fact that they send out weekly cleaning cancellations so if you need to get an appointment changed it is easy. Can't say enough good things about Dr. Mullins and all the other ladies in the office.

Wonderful experience, as always. Debbie and Jenny in the business/reception area are 'first class.' Jenny keeps one 'up to date' upon arrival to make sure your dental/medical 'history' on file is correct and you are given ample time to correct or 'change' any information previously provided. This is done in a timely and professional manner. Debbie handles the business of insurance coverage/payments and applicable matters with exceptional acumen. Dr. Rob Mullins is noted for his dental expertise/knowledge in the community and, in my opinion, just as important, a caring and sincere treatment of his patients. He explains all treatment with the patient before proceeding and gets their concurrence as to what they need to have done to remedy any dental 'problems.' He puts one at 'ease!' Vanessa... one of many qualified dental hygienists at Dr. Rob Mullins is absolutely excellent... cannot recommend her highly enough! Great personal manner that makes one most comfortable with the dental cleaning procedure! High Country Dental is my 'home' for dental care. I have gone there for years and have always had a most 'comforting' experience. I have had some dental issues over the years that Dr. Rob Mullins came to his office to resolve 'outside' of business hours. Now how is 'THAT' for 'SPECIAL?!' I have recommended Dr. Rob Mullins to friends, relatives, and acquaintances based on my personal experience with his practice and staff at High Country Dental and will continue to do so...

I switched dentists less than 6 months ago and due to the previous dentist's poor work (missed a couple of big things) I had to have several visits and some major work done over the last few months. Dr Mullins has been fantastic: professional and compassionate (I was not a happy client overall due to the previous dentist's mistakes). The front desk ladies are super friendly and make you feel at ease . Also, big kudos to Tina, the hygienist -- I have never had such a pleasant cleaning in my life. She is very experienced, knowledgeable (gave me some good advice specific to my situation) and gentle. This practice is the best my family has seen. So happy we found this place! Thank you Dr Mullins and Team!

★★★☆☆ by Senia Hamwi on 2017-08-17

Normally, I have a great experience but that hasn't been the case the last two appointments (one was a cleaning and one a crown). For me, it was because of the dental assistant/hygenist that worked with me. The ladies that used to work with me were awesome but I was placed with two others recently who lacked dental etiquette such as (dental assistant) don't shine the bright light directly in the eyes, offer glasses to protect eyes, don't shove vacuum further back when told I gag easy. I was bleeding and had to ask that my mouth be rinsed because I guess they were done at that point without a final rinse. I have an uncomfortable and painful cut on my tongue during crown work but I understand that may happen. Explanation and apologies go a long way for me but didn't get either- just told from my doctor I had a cut on my tongue. The hygenist kept screwing up on basic X-rays, for example, exposing me to additional radiation, and then she became quite unfriendly when I politely asked to stop X-rays with whatever she got and only do another if the doctor really needs it. Love the ladies at the front desk though-- the best I've had experience with:) I was uncomfortable bringing this up during the appointment. I should have but I didn't. I do plan to address it on the next visit as I've had a great experience for the past couple of years except for the last two appointments. Hopefully, it'll all turn out well.

I went in for a small white filling on my lower right the other day and the experience was EXCEPTIONAL. I arrived early and the staff was nice and prepared enough to bring me back early. Dr. Mullins asked if I wanted anesthetic, which was very thoughtful with it being a very small esthetic filling and I informed him that without it would be alright with me. Dr. Mullins went very slow and carefully with the drill and continuously asked if I was doing okay and if I wanted anesthetic. Besides the weirdness of the vibrations on the tooth, I did not once feel any discomfort or uneasiness. I was plenty distracted by my show on Netflix they let me watch. The

whole process was very thorough yet fast. I walked in at 8:50 and left at 9:20! For the remainder of the day, I never experienced any discomfort and I was glad to not be numb! I have three years of experience in the dental field and I highly recommend Dr.Mullins and myself and so many of my dental friends see him for our own dental needs.

Dr Mullins and staff are the best in town. I needed two crowns and Dr Mullins did an excellent job of explaining each step of the process and made sure I was comfortable throughout the entire procedure. Thanks to Robin and Debbie at the front desk for explaining the costs and working with me on my schedule. Would not go anywhere else for my dental care.

Dr. Mullins did a great job! I was extremely nervous to have my chipped tooth fixed for the 4th time since childhood. It has always been a painful experience. This was the first time it was easy, and I'm so glad I found a dentist who does only what is necessary. I'm very happy with my experience.

It's the dentist, no one wants to go but if I did I'd want to go here again! I had Amber, she was AMAZING!! I hadn't been to the dentist in 7 years or so but Amber didn't put me down for that, just wanted to make sure I was comfortable! But everyone seemed nice :) Dr. Mullins was also very friendly. It was the longest appointment ever (my fault) but they make EVERY effort to make sure it goes as best it can!

What staff that I met were all great and very profesional. I would like to point out (2) very profesional staff, the manager robin was so nice/helpful and made you feel very welcome and any concerns that you had she took care of them. The other very nice and profesional lady is Amber and she answered all of my concerns and was very concerned about your needs and that is what I call top service anywhere. Dr. Mullins was also very kind and took any concerens/scares that I may have had and made me feel less worried while he spoke to me. Thank you all very much and I look forward to seeing you again. Review for Rob Mullins

We brought my teenage daughter in for what we thought was going to be a simple baby-tooth extraction in order to make way for her incoming permanent tooth. Unfortunately, the root of the baby-tooth was wrapped around the adjacent tooth, and it required oral surgery. Mr. Mullins and his team were wonderful. They not only made time to finish the procedure (only 30 mins was scheduled and she was in there almost 1 1/2 hours), but they kept us informed as to the progress and did everything they could to keep our daughter calm and as comfortable as possible (she watched Netflix during the procedure). Complications are always possible during any routine procedure, and Dr. Mullins and his staff handled the situation perfectly.

My son had to have 4 baby teeth pulled and was very nervous about the procedure. Dr Mullins and his staff went above and beyond in making sure he was comfortable. This helped my son stay calm the entire time. We've been going to Dr Mullins since 2012 and he sees my entire family. Amber and Vanessa are quality dental hygienist; we adore them. If you are looking for a dentist please consider Dr Mullins, you won't regret it!!!

Review for Vanessa Woodworth

This was my initial appointment as a new patient. I requested an appt with Dr Mullins via the High Country Dental website. Office manager Robin called me the next day, and I was promptly scheduled for an exam that same week. During the appt, Vanessa got me x-rayed, and began my dental examination. Dr Mullins finished the exam, and set me up with a course of treatment. In and out in under a hour. A well-coordinated team effort, all directed at making me happy with my dental care. I'm very impressed, thanks!

Review for Amber Gotch

Well I just feel that the dentist industry has become an up-selling business. I think that if the patient is not having any obvious issues with their teeth , I think the dentist should just keep an eye on the areas of concern and not push the procedure. When a patient doesn't even know that they have an issue, then having a prescribed procedure is such a surprise. I know that this is preventative also but there needs to be a balance - I don't want to feel like we are in a restaurant trying to get the bill higher by suggesting dessert when we do t want to spend more money. Everyone was very professional and super nice.

I went in for a crown prep and had a temporary crown installed. Christi had done my final fitting on my temporary crown which needed some work

because one side was high. after I while I was completely satisfied and went home. That night I ate a crispy taco and it felt like I had broken my temporary crown. I called the office the next day which was a Friday and the office was closed. I left a message on the emergency number and Dr. Mullins personally called me back. He met me personably at the office on his day off and had to replace the crown, it was totally gone. it had fallen off. He fixed me up and sent me on my way, all on his day off. Thank you so much Dr. Mullins for coming in to repair my crown.

Dr. Mullins is awesome truly love his caring way in dealing with his everyone. He took the time to make sure that I was comfortable and he put the station that I listen to on Pandora before he started with the procedure. I'm very happy w/ him and his dental hygienist, still not sure about his assistant yet. She tend to rush too fast and making me feel uncomfortable,

by accidentally sucking my cheek w/ the suction tube several times and spray my face during the procedure and hitting my front tooth. I think she needs to slow down and stop rushing and this wouldn't happen.

Not only is Dr. Mullins a perfectionist in what he does, but explains every phase of the work being done and checks on the patient's comfort level frequently. I had to have a 30 year old gold inlay replaced with a crown, and I appreciated that Dr. Mullins complemented the preparatory work done by that dentist so many years ago. I was made to feel welcome from the minute I walked through the door to the time spent in the chair. The staff reflects the same kind manner of Dr. Mullins. Barbara

Doctor Mullins, Vanessa, and Robin are the most awesome people to deal with. I found them to be honest and trustworthy. They are very personable and offer a comfortable atmosphere. I have gone to them for years when they were with another practice, tried the new dentist after they left and found the new people very course and cared more about what they could make financially then care for the patient. Doctor Mullins advises what would be ideal for your situation and continues to ensure that he and his staff are doing what they can for your best oral health. I will continue to go here as they make a difference.

Review for Rob Mullins

I wish I could give Dr. Mullins and his staff 10 stars! 1st rate. This is coming from someone who can get anxious in the chair. Dr. Mullins and his staff listened to me and helped me and I have had no problems. Been a patient of Dr. Mullins for about 7 years. I will be a patient for life.

I am so glad I found Dr. Mullins and his team. Amber is by far the best dental hygienist I've ever had (and I've had a few) and Dr. Mullins has a fantastic "chair-side" manner and maintains a polished, top-notch Dental practice. I would not hesitate to refer them to anyone. Thanks Amber and Dr. Mullins!

When I called for appointment, I specified at that time what procedure I wanted to have done on the same day ..... This was ignored, was told it shouldn't be done at all & was given an estimate for a more pricier procedure.... I have no insurance & it is my money,, my mouth.... I went else where & had the procedure I wanted done..... All is great & I will stay with this other dentist,, as will my family members (5).

My daughter broke her front tooth and was very embarrassed about it. Dr Mullins and his staff saw her first thing in the morning even though she didn't have an appointment. We were so grateful, especially since my daughter didn't want to go to school with a broken tooth. This was her first time having anything done to her teeth other than the usual cleaning, so naturally she was nervous, but Dr Mullins and his staff were very patient with her, made her feel comfortable, and provided an exceptional filling on her front tooth and you can't even tell that it was broken! We were very pleased, as we always are, with our entire experience at Dr Mullins' office!

Dr Mullins is great with kids (and adults) My 5-yr-old son had to see him 2 weeks in a row for cavities and he wasn't anxious at all when we went back for round 2. Both of my kids love having Dr Mullins for their dentist! I would highly recommend him kids or adults.

Dr. Mullins and Staff are Wonderful! I have a little recession that makes me a little nervous prior to cleanings. My Hygienist was fantastic. I had one little zap, but nothing dramatic at all. The staff always asks about my family and seems genuinely interested in our wellbeing. It means a lot to know that they try so hard to make the relationship with you as well as keep you comfortable during procedures AND take care of all your dental needs. I get reminders via phone, text and email to help me remember my appointments as well. Love this office!

I like Dr Mullins and his assistants in the back but I was not impress with the office personal in the front. They are rude and no friendly. I would of came back to his office but they are his first and last impression. I was also shocked that I got a chipped tooth and had to have 6 different appointments to get it fixed. I can not take that much time off of work and I had to miss an appointment due to taking so much time off for all of these appointments and they are not understanding about it all.

Dr. Mullins is good. But, if you are getting a procedure done you better ask for a predetermination before the procedure. The staff will not do it if you do not ask for it. That is not caring for the patient. Nice little \$80 fee for cancelling within a certain time period or no show.

First off I am terrified of the dental procedures. Dr. Mullins and his team are amazing!!! My whole family goes there now! Vanessa did an excellent job with my families cleanings! I got in a couple days later for a filling too! Dr. Mullins and Evelyn did are so caring and patient ! I personally have had some major dental work done there as well! Tooth removal and crowns were handled expertly and professionally. Did I mention Robin is fantastic? I have NEVER had a billing problem! She is so professional and heartfelt. I recommend them to everyone!

I have always been afraid to go to a dentist; weak knees, cold sweats and actually almost blacking out were common for me. My dentist visits were years apart! But after extensive research on the internet and reading the other reviews, I decided I could give Dr Rob a try for an emergency bridge repair. I'm so glad I did. He and his entire office are so friendly, caring and upbeat, and I feel like I'm valued. Patient comfort is a priority with them. I honestly feel like I can maintain my dental health now and I finally have my pretty smile back.

From the moment I step into the office, I notice a palpable difference in the air. It is positive, light, encouraging, inviting even. Dr. Rob's chair-side manner is one of the best I have ever experienced. The highly trained, efficient, pleasant hygienists and lovely office manager are making my experiences the best ever and when the gentle application of anesthesia is done, I relax and abandon any worry about pain, nearly falling into sleep in the comfortable chairs. If you have not been satisfied with your Dentists in the past, give Dr. Rob a try at High Country Dental; you won't be sorry and may experience the same kind of euphoric visits I have (and not just from the anesthesia) since starting going to High Country Dental last year.

I am a former patient of Dr. Mullins and went back to him when he relocated. This office is HIGHLY competent and thorough. The exam I was given was the most detailed exam I have ever had by the Dental Hygienist. She made me relax (as much as I can relax!). Dr. Mullins is not only a very competent dentist but is really a very genuine person. We live in Monument, CO and have no interest in finding a dentist down here.

Best dentist, dental service and staff I could hope for. So glad I found them. Dr Mullins has a wonderful chairside manner, he is thorough and takes the time to explain and show me what he sees and what options are available to correct any issue. He listens to what I have to say and what my preferences are. His hygienist Amber is great too. She was gentle, considerate, informative and interactive. I requested to have her again for my next and future cleanings. After they moved to a new location on Smokey Hill they offered new clients lifetime teeth whitening or one cosmetic service. They extended that offer to me also since I received the coupon in the mail even though I had been to them in their previous location. Nice! I highly recommend this family dental clinic for everyone.
